TD-17KL

V-drum

When you're serious about drumming, you need a kit to match your ambition. The V-Drums TD-17 series lets your technique shine through, backed up with training tools to push you further. Combining a TD-50-class sound engine with newly developed pads results in an affordable electronic drum kit that's authentically close to playing acoustic drums – accurately mirroring the physical movement, stick coordination and hand/foot control that every drummer needs. Meanwhile, an array of built-in coaching functions will track your technique, measure your progress and increase your motivation. Becoming a better drummer is still hard work, but the TD-17 can help you get there.

Kit configuration

Drum sound module: TD-17-L x 1

Snare: PDX-8 x 1

Tom: PD-8A x 3

Hi-hat: CY-5 x 1

Hi-hat control pedal: FD-9 x 1

Crash: CY-8 x 1

Ride: CY-8 x 1

Kick: KD-10 x 1

TD-4KP

V-drum portable

Featuring a small footprint and an innovative folding design for fast breakdown and easy transport/storage, the TD-4KP V-Drums Portable is the ultimate e-kit for mobile drumming and small spaces. The powerful TD-4 sound module is equipped with a wide range of expressive, editable sounds and essential practice features, while the integrated pads provide a satisfying feel and natural playability. Perfect for small venues, rehearsals, lesson studios, bedrooms, apartments, and more, the TD-4KP combines V-Drums performance and features with impressive mobility and stow-away convenience.

- Renowned V-Drums sound and quality in an ultra-portable mobile kit
- Innovative folding design for quick, compact breakdown and easy transport/storage
- Includes TD-4 Percussion Sound Module, loaded with expressive sounds, Coach and Quick Record/Play functions, and more
- Eight pads total: kick, snare, toms x3, hi-hat, crash and ride cymbals; FD-8 Hi-Hat Controller included
- Snare and tom pads feature cushioned-rubber surfaces for natural playing feel
- Options: custom carrying case (CB-TDP); mesh-head snare pad (PDX-6/-8); pad mount (MDH-12); drum accessory package (DAP-3X); drum mat (TDM series)

TD-1KPX V-drum

The TD-1KPX2 is the latest addition to the portable V-Drums line. Despite its minimal footprint and light weight, the TD-1KPX features a sturdy drum stand for rock-solid performance and Roland's famous mesh-head V-Pads for snare and toms, giving natural rebound, feel, and playability.

- Portable V-Drums—a compact and lightweight drum set that can be played anywhere
- Innovative folding design—packs down without the need to remove pads or cymbals
- Mesh heads included—Roland's famous mesh-head V-Pads for snare and all toms provide great playing feel and natural response
- Easy to use—TD-1 sound module includes carefully chosen high-quality sounds, metronome, Coach functions, and play-along songs
- Customize with accessories—dedicated carry case to transport the drums (including all pads and pedals), quiet kick trigger pedals, and more

TD-1KPX2 V-drum

The TD-1KPX2 offers the same innovative, highly acclaimed folding design of the TD-1KPX V-Drums Portable with an updated kick pad. Roland's famous mesh-head V-Pads for snare and toms deliver an inspiring drumming experience with natural rebound, feel, and playability, while the kick pad is now perfect for either double—or single—kick pedal setups, thanks to a wider playing surface. The TD-1KPX2's unique folding design allows the kit to be packed down in seconds for easy transport and storage without removing the pads and cymbals.

- Authentic V-Drums performance in a compact and foldable drum set that can be played anywhere
- Innovative folding stand with built-in kick pad packs down quickly without the need to remove pads or cymbals
- Roland's famous mesh-head V-Pads for snare and all toms provide great playing feel and natural response
- Updated kick pad with wider playing surface to support double acoustic kick pedal setups
- Includes high-quality sounds derived from top-line V-Drums modules
- Develop drumming skills with a variety of easy-to-use onboard practice features

SPD-SX Sampling Pad

The new SPD-SX S840EXampling Pad puts powerful sample creation and playback under your sticks with innovative audio-capturing features, expressive playability, three multi-effects engines, and much more. The perfect addition to any acoustic or electronic drum kit, percussion setup, DJ booth, or keyboard rig, the SPD-SX is equally at home on the live stage, in the recording studio, pre-production suite, or dance club. The SPD-SX takes many of the proven concepts from its predecessor and raises them to a new level. Whether you're firing off one-shot samples, looped phrases, or complete audio playback tracks, the SPD-SX is loaded with the latest technology and tools to get the job done with speed, precision, and convenience. Enjoy the most advanced triggering and sampling technology in a sleek, easy-to-use percussion instrument.

Precio Público u\$s 1.560.00

VH-11 V-Hi-Hat

With eyes closed, drummers will think they're playing a regular two-piece hi-hat. But examine the innovative new VH-11 floating hi-hat, and you'll see that it's actually comprised of one floating cymbal pad atop a fixed lower base. Great for fast setup and easy transport, the VH-11 mounts on conventional hi-hat stands, and provides a similar playing feel to a 2-piece hi-hat. The VH-11 is fully compatible with Roland's TD-30, TD-20, TD-20X, TD-15, TD-12, TD-11, TD-9 and TD-4, and can be used with TD-10 with TDW-1, TD-8 and TD-6/6V.

NOVEDAD!!!

PD-108 BC V-Pad

NEW V-PAD WITH IMPROVED RIM SENSOR FOR ACCURATE RIM-SHOT SENSING

The PD-108 10-inch mesh head V-Pad includes a new rim sensor for improved dynamics and rim-shot depth. The pad features an exchangeable black-chrome color shell wrap and accommodates dual mounting for setup versatility.

Precio Público u\$s 790.00

PD-128 BC V-Pad

NEW V-PAD WITH IMPROVED RIM SENSOR FOR ACCURATE RIM-SHOT SENSING

A new rim sensor has been specifically developed for this 12-inch mesh head pad in conjunction with the TD-30 Drum Sound Module to accurately detect dynamics and rim-shot depth. The pad features an exchangeable black-chrome color shell wrap. The PD-128 is designed as a tom pad, and comes with a two way mount holder.

Precio Público u\$s 890.00

PD-125 BK V-Pad

OUR MOST SENSITIVE V-PADS EVER!

How do you improve upon the world's most popular electronic percussion pads? Start by designing a brand new sensor mechanism for more accurate triggering, and then give 'em a cool black finish! The 12-inch PD-125 and 10-inch PD-105 mesh V-Pads both feature Roland's latest dual-triggering technology, resulting in more even and accurate sensing between the head and rim. They are also the first V-Pads with rim shot capabilities on the toms—including the actual "rim click" sound.*

Precio Público u\$s 812.00

EL CAJON EC-10

Electronic Layered Cajon

Unique and versatile, the EL Cajon EC-10 allows cajon players to easily enhance their music with layered electronic sounds. To start, the EC-10 is an authentic acoustic cajon that sounds great on its own. What's more, it has Roland's renowned electronic percussion technology built in, letting you blend a range of complementary sounds with the cajon voice, from traditional percussion like tambourine and shaker to acoustic snare, electronic drums, sound effects, and more. Completely self-contained with battery power and onboard amplification, the EL Cajon EC-10 puts the dynamic world of hybrid percussion in the hands of every cajon enthusiast.

Precio Público u\$s 880.00

BT-1 Bar Trigger Pad

The compact and affordable BT-1 Bar Trigger Pad makes it easy to add electronic triggering to any drum kit. With a curved shape that mounts on the side of a V-Drums V-Pad or acoustic drum, it provides convenient playing access without disturbing your existing kit layout. The BT-1 is great not only for playing sounds in a V-Drums module or SPD-series percussion pad, but also for convenient control of a variety of functions like start/stop of backing songs and phrase loops, and much more.

- Compact and reliable single-trigger pad.
- Curved shape for mounting on a V-Pad or acoustic drum.
- Quick and easy mounting through a drum tension rod; attachment parts for standard rod-type mounts included.
- Internal design eliminates false triggering while playing surround cymbals and/or pads.
- Use with a V-Drums module or SPD-series percussion pad to trigger sounds and control functions such as start/stop of backing songs and phrase loops, effects on/off, kit selection, tap tempo, and more.
- Great way to add electronic triggering to any acoustic kit or additional triggering to a V-Drums set.
