- 3) 5x 1/4" Speaker Output Jacks (1x8 Ohm, 2x4 Ohm & 2x2 Ohm)

Precio Público - u\$s 6604.00

**THROTTLE BOX EQ****OVERDRIVE / DISTORTION PEDAL  
THROTTLE BOX EQ**

With the worldwide success of the THROTTLE BOX™ overdrive, we saw potential for an even more powerful version that included our classic Five-Band Graphic Equalizer. With the added shaping power the on-board Five Band EQ creates the THROTTLE BOX EQ can go anywhere you want to take it stylistically. The middle range of the GAIN control delivers tight, stinging overdrive that—depending on whether you choose LO or HI GAIN Modes—can cover everything from Blues to Modern Metal with plenty of attitude and an urgent percussive nature. Cranking things up into the upper one-third of the GAIN control in HI unleashes a hot-rod that's blistering with searing top-end harmonics.

- HI Level - LO Level - Tone - Gain
- Mid-Cut - Boost
- 5-Band Graphic EQ with LED Indicators
- EQ HI - EQ LO
- True Bypass Switching

Precio Público - u\$s 614.00

2.MVMX.BB

**CABEZAL DE GUITARRA**  
**MARK V**

Sporting two fully independent channels with six style modes, the Mesa/Boogie Mark Five: 25 tube amp head gives you legendary Mark Series preamp tone combined with Mesa's proprietary Dyna-Watt 2 x EL84 output section. This Mark Series amp gives you maximum portability and responsiveness. Dial in everything from sweet cleans to roaring leads with extra midrange crunch and aggression when you push the EL84 power tubes hard. Factor in the built-in Cabclone speaker-emulated direct output, and you have an amazing gigging and recording amp with the Mesa/Boogie Mark Five: 25 tube amplifier.

- 1) 3 Channels / 9 Modes / Ch. 1 = Clean, Fat or Tweed / Ch. 2 = Edge, Crunch or Mark I™  
Ch. 3 = Mark III+™, Mark IV™ or Extreme
- 2) Multi-Watt™ 10, 45 or 90 (Channel Assignable)
- 3) Tubes: 4x Mesa 6L6 (or EL-34)

**Precio Público - u\$s 6136.00**

## BAFLE PARA GUITARRA **LONESTAR 23**

**0.XCBBB-CLW**

The medium-width, rear-loaded Lone Star® 23 extension offers the ultimate balance of generous low end fullness and punch and sweet, open back clarity and brilliance. Cabinets with a single 12" speaker offer that elusive "openness" - tone that sings from the cone of the speaker (compared to 2x12s which have a little more emphasis on punch and projection). Similar to MESA's classic WideBody 1x12 in size and weight but with Lone Star styling, the Lone Star 23 represents the perfect blend of size, weight, portability, great looks and TONE!

- 1) 90 Watt
- 2) 8 Ohm
- 3) Celestion Custom 90 Speakers
- 4) Format: 1x12"

Precio Público - u\$s 1134.00

## BAFLE PARA GUITARRA **RECTIFIER** (2x12 vertical)

**0.2FBB-RV**

For fans of the Slant Cab style and tone (but a 4x12 is too much), the Rectifier® 2x12 Vertical Slant delivers. With roughly the same interior area as the Horizontal 2x12 Recto-cab, the overall tone, punch and detail is similar, but some players prefer a Slant-style cabinet for the 'monitor' effect from the top speaker sloping upwards. When you can't bring a 4x12 to the gig or session, the 2x12 Recto Vertical Slant Cab easily provides a similar sonic footprint, without the size & weight... and it's styling and huge tone will probably fool most folks into thinking it IS a 4x12.

- 1) 120 Watts
- 2) 8 Ohm
- 3) Celestion Vintage 30 Speaker
- 4) Format: 2x12" Vertical Slant

Precio Público - u\$s 2200.00

## CABEZAL DE GUITARRA ELECTRA DYNE

**2.D9XBBBM**

From the Best of the Brit lineage, the Electra-Dyne™ takes modified English gain sounds and sorts them into LO and HIGH regions, combined with a retro-minded, American-voiced clean "channel" and linked to one mini-toggle giving you three of Rock and Roll's most classic sounds on one switch!

1) Single Channel simplicity with Multi-Channel amp versatility / 5 Footswitchable Modes: Classic Boogie Clean, Vintage Low Gain, Vintage Hi Gain.  
2) Wattage Ratings: 45/90.

Precio Público - u\$s 4805.00

## CABEZAL DE GUITARRA MINI RECTIFIER

**2.MR25X**

NEW! Iconic Recto Tone & Styling in an Ultra Compact 'Mini' Design packed with performance versatility - including our patented MULTI-WATT™ Channel Assignable Power. All in a portable 12-pound package! (12 5/8in W x 6 3/4in D x 5 7/8in H)

1) 2 Fully Independent Channels / 4 Style Modes: Ch1 ~ Clean or Pushed, Ch2 ~ Vintage or Modern High Gain with Multi-Watt Power Switch.  
2) 2 Power Tubes Class A/B Triode (10w), 2 Tubes DynaWatt Class A/B Pentode (25w).

Precio Público - u\$s 2725.00

## CABEZAL DE GUITARRA DUAL RECTIFIER

**2.DR1XBLC**

A menacing sound with the creamy voice of a Boogie with huge low end that tracks fast & stays tight even under the most extreme settings with hundreds of hit recordings and thousands of ecstatic customers.

- 1) 3 Fully Independent Channels / 8 Modes: Ch 1= Clean/Pushed, Ch 2 = Raw, Vintage or Modern High Gain, Ch 3=Raw, Vintage or Modern High Gain.
- 2) 100 Watts, Class A/B Power / 4x6L6, 5x12AX7, 2x5U4.

Precio Público - **u\$s 5408.00**

## CABEZAL DE GUITARRA TRIPLE RECTIFIER

**2.TR1XBLC**

These machines of mayhem unleash all the punishing gain found in the original Rectos' two channels, adding a powerful third channel dedicated to rhythm sounds.

- 1) 5 Fully Independent Channels / 8 Modes: Ch 1= Clean/Pushed, Ch 2 = Raw, Vintage or Modern High Gain, Ch 3=Raw, Vintage or Modern High Gain.
- 2) 150 Watts, Class A/B Power / 4x6L6, 5x12AX7, 2x5U4.

Precio Público - **u\$s 5720.00**

## COMBO PARA GUITARRA **LONESTAR**

**1.LS1MXBBBC**

The Lone Star is an amplifier of such extravagant tone and seductive feel that we can almost guarantee that you will experience divine inspiration and effortless expression every time you plug into it! It is that amazing! From its innovative custom circuitry, down to its new classic retro/vintage looks, the Lone Star was designed to be the new defining vintage/boutique amplifier from the original boutique amp builder!

- 1) 2 Fully Independent Channels each with Gain, Treble, Mid, Bass, Presence, Reverb & Master Controls
- 2) Multi-Watt Power Amp
- 3) 1x12" Speakers

Precio Público - u\$s 5294.00

## COMBO PARA GUITARRA **LONESTAR SPECIAL**

**1.SP2LXDCTCO**

The Lone Star Special offers three distinct power configurations: 30, 15, or 5 with a seductive, bubbly authentic retro-tone and a sensual, elastic feel. Perfect Power. Per Channel. On Demand.

- 1) 2 Fully Independent Channels / 4 Modes: Channel 1=Boutique Vintage Clean/Classic Breakup. (Channel 2=Clone) or Channel 2=Cascading High Gain
- 2) Power Ratings of 5, 15 or 30 Watts per Channel
- 3) 2x12" Speakers

Precio Público - u\$s 5720.00

**COMBO PARA GUITARRA

- 3) 2 x 12" speaker

**Precio Público - u\$s 5876.00**

## COMBO PARA GUITARRA **MARK V**

**1.MV1XBBCO**

The MARK V is really a collection of amplifiers. There are far too many circuits and sounds to think of it as merely an amp. It is also a living history of our company. From the groundbreaking MARK I that introduced the world to high-gain with it's cascading pre amp, to the Mark II - the world's first high gain Dual Mode Channel Switching amplifier and it's later siblings that introduced Simul-Class™ power. From the MARK III that ushered in the era of 3 Channel footswitching performance, to the MARK IV which gave all this power individual control, the MARK V is the embodiment of the last 40 years of guitar amp history.

- 1) 3 Fully Independent Channels with 9 Modes
- 2) 5 Band Graphic EQ
- 3) 10/50 watts
- 4) 1x12" Speakers

**FP.FLUXDRIVE****OVERDRIVE PEDAL  
FLUXDRIVE**

Is an overdrive for those who want more of all the best things from an overdrive! It has more liquid gain and enhanced sustain that easily feeds into rich harmonic overtones making it incredibly addictive and inspiring to play, especially to enhance a crunch or higher gain amp channel! It also offers a more complete tone-shaping network with individual Treble and Bass controls. This architecture makes the FLUX-DRIVE a more complete preamp with added versatility beyond that of most overdrive pedals.

**Controls:**

- Level
- Gain
- Bass
- Treble

Precio Público - u\$s 333.00

**FP.GRIDSLAMMER****OVERDRIVE PEDAL  
GRID SLAMMER**

Is an overdrive pedal that produces a variable boost in gain over a wide range with a classic, guitar-centric midrange bump that enhances many different playing styles. It's a true overdrive "specialist" that covers an amazing array of what many top players consider the most expressive and musical ranges of overdrive. From sweet, subtle breakup to a harmonically smoldering overdrive that can both sting and sing, the GRID SLAMMER sets a new bar in legendary overdrive!

**Controls:**

- Level
- Tone
- Gain

Precio Público - u\$s 333.00

**FP.THROTTLEBOX****DISTORTION PEDAL  
THROTTLE BOX**

Serves up all genres of ROCK with cut and aggression, but retains the signature warmth and organic sonic quality found in all our instruments. While its main strengths lie in higher-gain sounds, it's also versatile and the lower gain options shouldn't be overlooked for classic rock or howling blues. It also features a unique Mid Cut that scoops out midrange to produce the signature Boogie "V" EQ-curve that so many artists have employed in our amps to create the world's heaviest guitar tones!

**Controls:**

- Level
- Gain
- Mid Cut
- Tone
- Lo / Hi Switch

Precio Público - u\$s 375.00

**FP.TONEBURST****BOOST/OVERDRIVE PEDAL  
TONE-BURST**

Offers a virtually transparent gain range usually associated with "clean" boost pedals. However, the TONE-BURST has enough gain to boost your guitar to the threshold of clip and slightly beyond, making it far more useful for a variety of applications. It's incredibly powerful for adding boost, drive and/or EQ to any guitar and amp combination. Whether using it as a utility to boost the output of single coils to match a humbucker or as a subtle overdrive when a standard overdrive may be too much, the TONE-BURST is an incredibly useful and expressive pedal that makes the best things sound even better!

**Controls:**

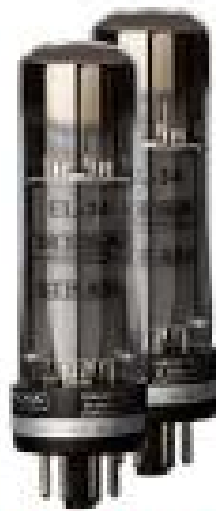

- Level
- Gain
- Bass
- Treble
